

# CLEANING / SPOTTING GUNS

Mild Solvent	SPOTlite Spotting Gun:	
	<p>With 40 Watts, the SPOTlite is a smaller, lighter, quieter sprayer than the 90W POWERsprayer gun. When used with our SOFTsolvent cleaning fluids, the SPOTlite is ideal for removing a wide range of stains from different fabric types. The variable nozzle provides control to spray a jet or wider pattern. Long-lasting, economic solution made in Switzerland. 550ml container.</p> <p><b>COMING SOON: DRYING BOX AND ATTACHMENT</b>                  Portable drying unit for instant warm air drying. No compressed air connection or air compressor needed.</p>	
Power Spraying	POWERsprayer Cleaning Gun:	
	<p>With 90W and a larger flow rate, the POWERsprayer is ideal for cleaning minerals, ovens and machines. The POWERsprayer includes a jet spray variable nozzle to switch between jet or wider patterns and a power jet nozzle. 700ml container.</p> <p><b>OPTIONAL:</b> POWERsprayer suction extension allows spraying directly from a larger container.</p>	
		

# SPOTTING SYSTEM

The Spotting Table	Table SOFTspot:	
	<p>This innovative design is the ultimate, most effective, most flexible, feature rich spotting system on the market.</p> <p>The unique all in one handheld spraying head includes powerful, adjustable nozzles and warm air drying. Simply press one of the buttons and get a powerful delivery of hot soap, mild solvent or water- allowing you to match the cleaning power &amp; liquid to the stain type. The same spraying head also delivers a broad flow of warm air- without any need for compressed air.</p> <p>Made in Switzerland with a compact &amp; modern design and full of time saving technology, the SOFTspot spotting table is light years ahead of anything similar at a price that is 20% of our old DUO system.</p> <p>Comes with 12l of SOFTsolvent and enough SOFTsoap for 50 litres!</p>	

# SPOTTING FLUIDS
